The adherents of what they have yelept the "Citizens' Ticket," publish elsewhere the platform on which they intend to stand in the coming municipal contest. The platform is conservative and sensible throughout, but the danger is in going too far in the opposite direction. Just what is meant by "a judicious and economical expenditure of public funds" remains to be seen. It is very easy for a council to take a too narrow view even in the matter of expending the public funds. Ellicott City has quite a name abroad as being a stirring place-If we are not entertaining the people of the State with an enterprise like putting in electric light or the purchase of fire apparatus, we can furnish them with any amount of social and political pabulum, which may include either a first-class s andal, a fierce local squabble, a case of official infidelity or a bloody murder as the case may te. The platform above mentioned rather intimates that something's gone wrong; another instance where men high in official management or mis-manage i ent, are to endure the

fi :ree glare of public scrutiny. It is hoped that the new council when it gets in will not draw the public purse strings too tightly. The electric light of our city has been of great advantage to the place, prospectively, at least. We a e all in favor of the influx of capital here, and electric light is one of a series of improvements that will tend to invite capital. Water we should have but no plan economical enough has as yet been divised. The electric company was unfortunate enough to have a -poor plant on its hand; which had to be renewed at a large expense, by which it became involved. The company has asked of the city a reasonable increase of the monthly pay it has been receiving for services which are being rendered the city.

It will require an additional outlay of money on the part of the company to save the plant. This it is willing to do provided the city comes to the front with he extra pay. We believe it is the desire of a majority of our citizens that the light be preserved, especially since it is known that the additional cost will not require any extra taxation. The platform of the Citizens' ticket is not explicit on this. While it seems sound and conservative it may be construed to mean anything. It is a sort of glittering generally, vague in meaning, élastic enough to cover a wide scope, yet capable of being drawn into such a narrow conception that a policy inimical to the best interests of the city might be inaugurated. The character of the men on the ticket, however, will be a guarantee, it is maintained, that no wild goose, visionary schemes of supposed improvement to the city, involving a large and burdensome outlay of money will be gone into. It is said that an opposition ticket will be named.

Revenue Receipts.

Our present tariff law has been assailed because it is not yielding revenue equal to the expenditures. It has been shown that this is only a temporary condition, and that in time it will yield abundant revenue. It would be yielding enough now but for the panic brought on by Republican legislation.

But little attention has been paid to the fact that it was absolutely necessary to repeal or modify the McKinley law because it was not yielding enough revenue. It has been said that it yielded enough under Mr. Harrison's Administrtion, but this is not true. Else why was the surplus squandered? Why was a trust fund covered into the Treasury to pay current expenses? Why were conds to the amount of \$25,000,000 continued after they were due. Obviously because expenditures exceeded the ordi-

nary revenue receipts.

A comparison of receipts of the last fiscal year, with those of the present year is instructive in this connection. The McKinley law was in force during the whole of the fiscal year which ended June 30, 1894, and till August 28 in the present fiscal year. Up to March 1, 1895, embracing eight months of the present fiscal year, the revenue has been twelve and one-half millions greater than it was in the last fiscal year under the McKinley bill, but the collections from customs during those months were more than in the preceding year. The collections of customs have been larger in every month since August than in the corresponding month of the preceding year. In December, '94, they were greater than in December, 1893, by two millions in round numbers. In January, 1805, there was an increase of cive will be the control of the preceding year. In December, 1893, by two millions in round numbers. In January, Cumberland—Centro Street LC Nichel. 1895, there was an increase of six millions as compared with January, 1894. In February the increase was about three | Samuel Shannon; Eik Garden, C. months, but the total revenue increased December, January and February, as compared with the preceding year, by about seven millions of dollars. Kent county is much excited over the hreats of a negro to kill the family of Mr. Samuel J. Ilill, father of the late Dr. J.
